

Live! Cam Video IM Ultra on MAC OS

Keywords / Key Phrases: mac os, install, software, mac compatibility

Summary:

- ✓ Applies To: Live! Cam Video IM Ultra (VF0415)
- ✓ **UVC or USB Video Class** is a USB device class that describes devices that are capable of streaming videos, much like webcams, digital camcorders, transcoders, analog video converters, television tuners and still-image cameras.

The Creative Live! Cam Video IM Ultra does not require its installation CD since it is UVC compliant.

The bundled software is not supported on MAC OS but the webcam is classified as a 'plug and chat' device. Therefore, although the webcam can be used on a Mac system as any standard plug and play webcam, there is no full functionality as the applications bundled are only for Windows based.

Here are the system requirements for Live! Cam Video IM Ultra:

- Intel® Pentium 4 1.8 GHz or AMD equivalent processor (Intel® Core2 Duo E6300 1.86GHz recommended)
- Microsoft® Windows XP SP2 / Windows Vista
- 256MB RAM (512MB recommended)
- 500MB HDD
- CD-ROM
- USB 1.1 (USB 2.0 required for optimum performance)

Specifications of Creative Live! Cam Video IM Ultra:

- 1.3 megapixel sensor
- Take up to 5.0 megapixel photos*
- Record video at up to 1.3 megapixel resolution
- Capture video at up to 30 frames per second (with hi-speed USB 2.0)
- Auto tuning with Live! View technology
- Built-in noise-canceling microphone with Live! Audio technology
- Smart Face Tracking with 4X digital zoom
- Video and voice effects add fun to video chat
- Exclusive parental control with password protection
- Plug and Chat: Video chat instantly with most major IM programs - no CD software installation needed!+

- Works with USB Video Class (UVC) drivers

Legend:

* 1.3MP photo interpolated from native VGA sensor.

+ Built-in mic and video/photo capture at 1.3MP resolution works on any Windows® XP (SP2) or Windows Vista™ computer.
