

Where Can I Download the Latest Creative Drivers/Applications and Firmware?

Keywords / Key Phrases: where to download creative's latest driver and application, download, latest driver, latest application, sound blaster, sound card, webcam, mp3 player, speakers, headset and headphones latest downloads, firmware versions

Summary:

- ✓ Refer to this article for details and steps on where and how to download the latest drivers, applications and firmware of Creative products.

Follow the steps below to get the latest drivers, applications and firmware for your Creative product:

1. Visit our main Support site at support.creative.com.
2. Select your product icon from the product category page eg. **Sound Blaster**, **Speakers** or **Web Cameras**.

[Click to enlarge](#)

3. Select the product model from the product page then proceed to step 6. * If your product model is not displayed, go to the bottom of the page and select the **click here** link on the "If your product is not listed above, please click here."

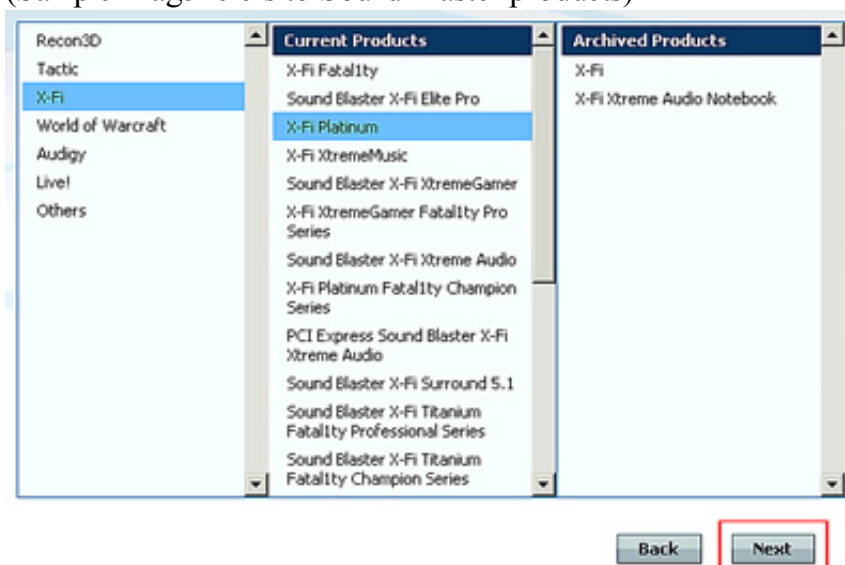

(Sample image refers to Sound Blaster products)

[Click to enlarge](#)

- Click the category from the left panel and look for the product model under the Current Products list on the center panel or under the Archived Products list on the right panel.

(Sample image refers to Sound Blaster products)

- Click on **Next** to continue.
- On the product homepage, scroll to the section **Latest Downloads** or **All Downloads** to download and install the latest driver, application or firmware.

Note:

To find out more about the driver, application or firmware, click on the **Show Details** option. You can also use the **View** option to display the drivers, applications or firmware only.
